

An aerial photograph of several tennis courts. The courts are marked with white lines on a dark surface. One court in the foreground is highlighted with a 3D yellow geometric overlay that resembles a stylized building or a series of stacked planes. The overlay is semi-transparent, allowing the court's surface and lines to be seen through it. The text 'sportsinfra●store' is overlaid on the top part of the image.

PU Binder – TETRAPUR 154

PRODUCT DESCRIPTION: Tetrapur 154 is high quality, ambient moisture curing, one-component PUR binder based on MDI.

PRODUCT SPECIFICATIONS

Category: **Polyurethane (PU)**

Product Type: **Single-component Polyurethane Binder**

Manufacturer: **BSG Poland**

Application: **Binding SBR or EPDM granules for flooring system.**

Usage: **Indoor & Outdoor**

PROPERTIES

- High mechanical resistance
- High flexibility
- Low viscosity
- Fast curing
- Solvent free

PU Binder
(Single Component)

Weight : 60kg or 220kg Metal Drum

PU Sealer – TETRAPUR 110 Bicomponent

PRODUCT DESCRIPTION: Tetrapur 110 is a two component, colored, thixotropic PU pore sealer.

PRODUCT SPECIFICATIONS

Category: **Polyurethane (PU)**

Product Type: **Two-component Polyurethane Sealer**

Manufacturer: **BSG Poland**

Application: **Closes pores in SBR rubber granulate mats.**

Usage: **Indoor & Outdoor**

PROPERTIES

- Does not contain solvents
- Bonds without shrinkage or bursting

PU Sealer
(Component A)

PU Sealer
(Component B)

Packaging : Tetrapur 110 Comp. A: 1 x 24 kg

Tetrapur 110 Comp. B: 1 x 6 kg

(For mixing ratio, refer to the TDS)

PU Topcoat – TETRAPUR 136 Bicomponent

PRODUCT DESCRIPTION: Tetrapur 136 is a two-component, pigmented, flexible pourable system based on polyurethane.

PRODUCT SPECIFICATIONS

Category: **Polyurethane (PU)**

Product Type: **Two-component Polyurethane Topcoat**

Manufacturer: **BSG Poland**

Application: **Poured system for flexible sports surfaces covered with EPDM rubber granules.**

Color: **Red**

Usage: **Indoor & Outdoor**

PROPERTIES

- High mechanical resistance
- Low viscosity
- High flexibility

PU Topcoat
(Component A)

PU Topcoat
(Component B)

Packaging: Tetrapur 136 Comp. A: 1 x 60 kg
Tetrapur 136 Comp. B: 1 x 60 kg
(For mixing ratio, refer to the TDS)

PU Spray - TETRAPUR 134

PRODUCT DESCRIPTION: Tetrapur 134 is a one-component, structured, color PUR spray system containing a solvent, that polymerizes under the influence of ambient moisture.

PRODUCT SPECIFICATIONS

Category: **Polyurethane (PU)**

Product Type: **Single-component Polyurethane Spray**

Manufacturer: **BSG Poland**

Application: **Colored spray coating on flexible mats made of SBR or EPDM rubber granules.**

Application method: **Spray**

Usage: **Indoor & Outdoor**

Color: **Red**

PROPERTIES

- High mechanical strength
- High flexibility
- Short polymerization time
- Low viscosity

PU Spray
(Single Component)
220 kgs

Packaging : 60 kg Metal Drum

Artificial Turf (FIFA Certified) – DUO Shape 50 (Limonta Sport)

PRODUCT DESCRIPTION: Duo Shape 50 is an innovative artificial turf which achieves the perfect combination of strength and resilience. Specially developed to improve durability and game performances, Duo Shape consists of a special shape with two different coloured sections that are combined but not twisted.

PRODUCT SPECIFICATIONS

Category: **Artificial Turf**

Product Type: **Duo-Shape Monofilament Artificial Turf**

Manufacturer: **Limonta Sport (Italy)**

Yarn: **100% Polyethylene**

Thickness: **440/300 microns**

Pile Height: **50 mm**

Gauge: **3/4 – 5/8 inches**

Color: **Dual-tone Green (for natural look)**

Usage: **Indoor & Outdoor**

PROPERTIES

- Special shape
- Innovative polymer
- Two colours: lime for the thicker and more resilient shape which simulates the natural newly-born turf + dark for the thinner one which simulates the natural aged turf
- Corrugated surface to decrease light's reflection (matt effect)
- Central diamond thickness support
- Excellent ball roll and rebound

Packaging Type: **Roll**

Artificial Turf (FIFA Certified) – DUO Shape 60 (Limonta Sport)

PRODUCT DESCRIPTION: Duo Shape 60 is an innovative artificial turf which achieves the perfect combination of strength and resilience. Specially developed to improve durability and game performances, Duo Shape consists of a special shape with two different coloured sections that are combined but not twisted.

PRODUCT SPECIFICATIONS

Category: **Artificial Turf**

Product Type: **Duo-Shape Monofilament Artificial Turf**

Manufacturer: **Limonta Sport (Italy)**

Yarn: **100% Polyethylene**

Thickness: **455/300 microns**

Pile Height: **60 mm**

Gauge: **3/4 – 5/8 inches**

Color: **Dual-tone Green (for natural look)**

Usage: **Indoor & Outdoor**

PROPERTIES

- Special shape
- Innovative polymer
- Two colours: lime for the thicker and more resilient shape which simulates the natural newly-born turf + dark for the thinner one which simulates the natural aged turf
- Corrugated surface to decrease light's reflection (matt effect)
- Central diamond thickness support
- Excellent ball roll and rebound

Packaging Type: **Roll**

Artificial Turf (Non FIFA Certified) – Top Plus 50 (Limonta Sport)

PRODUCT DESCRIPTION: A diamond shaped monofilament with a very thick central shape to ensure durability and high wear resistance. The two tonalities of green of the monofilament have been designed to better replicate the chromatic effect of natural grass surfaces.

PRODUCT SPECIFICATIONS

Category: **Artificial Turf**

Manufacturer: **Limonta Sport (Italy)**

Yarn: **100% Polyethylene**

Thickness: **310 microns**

Pile Height: **50 mm**

Gauge: **3/4 inches**

Usage: **Indoor & Outdoor**

Color: **Dual-tone Green (for natural look)**

PROPERTIES

- Highly wear resistant
- Reduced Splash-effect
- Ideal for sports with intense usage

Packaging Type: **Roll**

Zida Multipurpose Turf

ZIDA

PRODUCT DESCRIPTION: This is a multipurpose turf that uses monofilament texturized rectangle-shape yarn with a dense stitch rate and that delivers consistent play, greater resilience, and maximum coverage.

PRODUCT SPECIFICATIONS

Category: **Artificial Turf**

Manufacturer: **ZIDA**

Yarn: **100% Polyethylene**

Thickness: **180 microns**

Pile Height: **13 mm**

Gauge: **3/16 inches**

Usage: **Indoor & Outdoor**

Color: **Natural green shades**

PROPERTIES

- Multi-Sport Flexibility
- High Durability
- Player Safety
- Low Maintenance

Packaging Type: **Roll**

Zida EPDM

PRODUCT DESCRIPTION: Zida EPDM are 100% premium rubber granules that are vibrant, non-toxic and UV-stable. It is designed for safe, durable and visually appealing sports courts, playgrounds, walkways, and recreational spaces.

PRODUCT SPECIFICATIONS

Category: **EPDM**

Manufacturer: **ZIDA**

Granule Size: **1–4 mm**

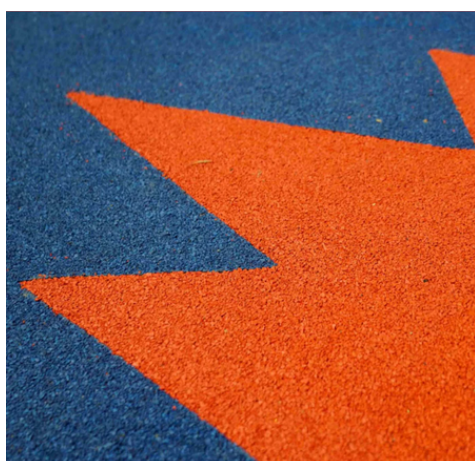

Material: **100 % Ethylene Propylene Diene Monomer (EPDM) synthetic rubber**

Usage: **Indoor & Outdoor, Recreational & Professional Use**

Color Range: **Wide range of vibrant colors**

PROPERTIES

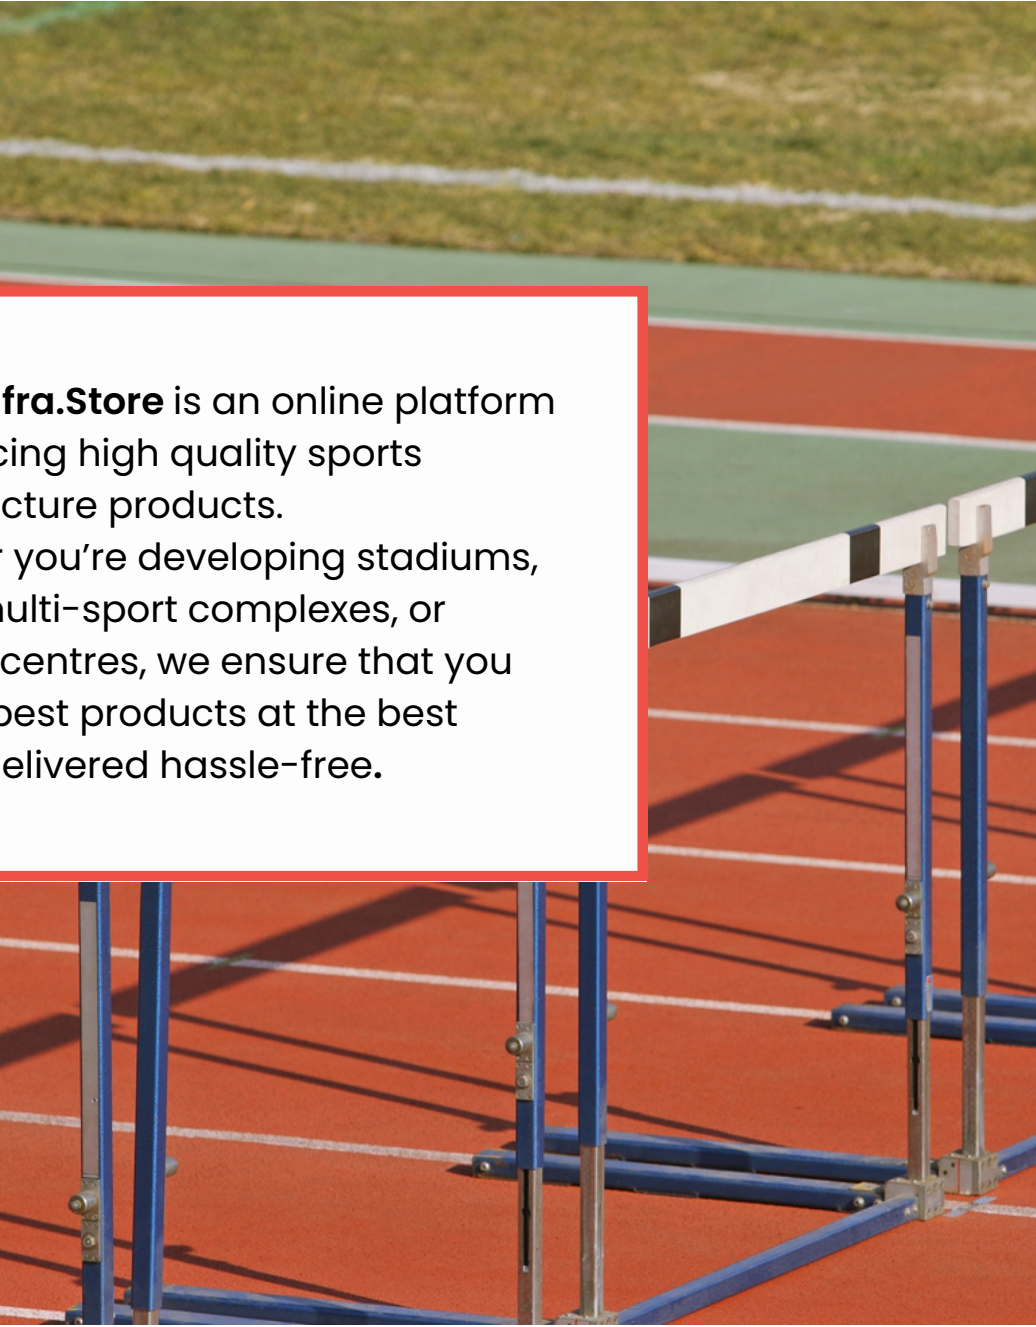

- High flexibility and elasticity
- Durable and long-lasting
- Slip-resistant surface
- Easy to install and maintain
- Environmentally friendly and safe for children
- Wide range of colours
- EN 1177 and ASTM F1292 compliant

Packaging Type: **25kg Bag**

ABOUT US

Sportsinfra.Store is an online platform for sourcing high quality sports infrastructure products. Whether you're developing stadiums, gyms, multi-sport complexes, or training centres, we ensure that you get the best products at the best prices, delivered hassle-free.

WHY CHOOSE US ?

Certified Products

Our products are certified and compliant with global standards like FIFA, FIBA, ITF, BWF, FIH, FIP, and more.

Wide Product Range

Our curated catalog ensures a wide range of professional-grade products.

Trusted by Professionals

Preferred by builders, contractors, and sports facility owners across India.

Dedicated Customer Support

Get technical assistance, procurement guidance, and order tracking support from our experienced in-house team.
